

Project board in Trello:

User Stories:

Julia Roberts can search news by country

in list [User Stories](#)

Description Edit

As Julia I want to filter news from particular country so that I can see the hottest information from a specific area.

Acceptance Criteria:

GIVEN I am logged in to my account

AND I choose the country from a closed list of available countries

WHEN I click search button

THEN list of news should update showing only news from the chosen country

Wider context:

Julia is an emigrant, she lives far from her family and friends but she would like to be up-to-date with everything what's happening in her mother country. She wants to filter the news by country in order to see the hottest information from her homeland.

John Cage can have a personalized feed with news

in list [User Stories](#)

Description Edit

As John I want to have a personalized feed every day so that I can speed up reading and searching for the latest news.

Acceptance Criteria:

GIVEN I am logged in to my account

WHEN I go to my dashboard

THEN I should see only personalized set of news

Wider context:

John is 43 years old and a full time worker in the IT industry and he likes to read the news in the morning before he goes to work, but he hasn't have enough time to search for the latest news on his own.

Kylie Gates can read news from beauty section

in list [User Stories](#)

Description Edit

As Kylie I want to read news only from beauty section so that I will be well informed about this topic.

Acceptance Criteria:

GIVEN I am logged in to my account

AND I choose the "beauty" category from a closed list of available categories of news

WHEN I click search button

THEN only news related to this theme should be displayed

Wider context:

Kylie is a 22 year old beauty influencer, that likes to read beauty news everyday during breakfast. She needs to be well-informed of the latest beauty products and trends.

Albert Bieber can choose a topic of the news

in list [User Stories](#)

Description Edit

As Albert I want to filter news by the keyword so that I can be well informed about football matches from Champions League.

Acceptance Criteria:

GIVEN I am logged in to my account

AND I write the key word which is "Champions League" in the searching area

WHEN I click search button

THEN only the news about Champions League should be displayed

Wider context:

I'm a football fan and I wasn't able to watch last night's Champions League matches. But I want to know everything there is to know about yesterday's matches, so I use the What's new? website to fulfill my desire. Besides that I'm also very interested in politics so in the same site I can just change the news topic and search for politics.

Steve Jenner can comment the news

in list [User Stories](#)

Description Edit

As Steve I want to comment particular news so that I can have a discussion with other users in comment section.

Acceptance Criteria:

GIVEN I am logged in to my account

AND I chose specific news to read

WHEN I click the button "join discussion" next to the chosen news

THEN I should see other users' comments about this news

AND I can write my own comment

Wider context:

Steve is an retired teacher. He lives alone and spends a few hours per day on making discussions on forums. He would like to be able to write comments to specific news and have discussion with other users in comment section on the topic related to the specific news.
