☰ **Description**   Edit

As Albert I want to filter news by the keyword so that I can be well informed about football matches from Champions League.
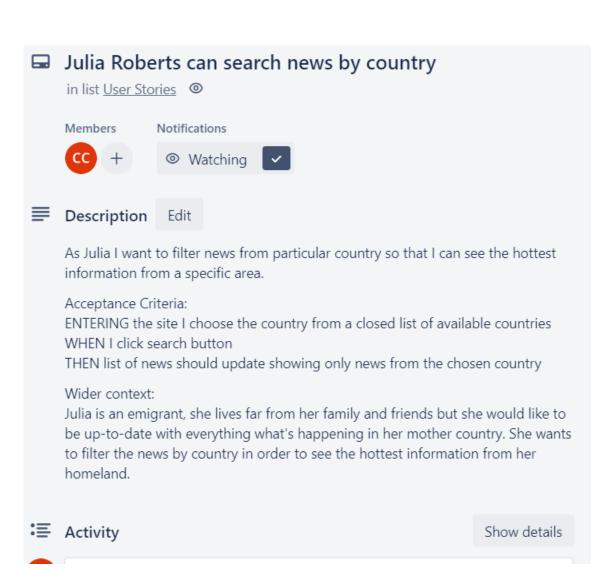

Acceptance Criteria:
ENTERING the I write the key word which is "Champions League" in the searching area
WHEN I click search button
THEN only the news about Champions League should be displayed

Wider context:
I'm a football fan and I wasn't able to watch last night's Champions League matches. But I want to know everything there is to know about yesterday's matches, so I use the What's new? website to fulfill my desire. Besides that I'm also very interested in politics so in the same site I can just change the news topic and search for politics.

☰ Description Edit

As Julia I want to filter news from particular country so that I can see the hottest information from a specific area.

Acceptance Criteria:
ENTERING the site I choose the country from a closed list of available countries
WHEN I click search button
THEN list of news should update showing only news from the chosen country

Wider context:
Julia is an emigrant, she lives far from her family and friends but she would like to be up-to-date with everything what's happening in her mother country. She wants to filter the news by country in order to see the hottest information from her homeland.
